The New Standard for Tutor Matching.
We manually verify top scorers with our Gold Badge, taking the guesswork out of finding the right tutor. Experience Hong Kong's most transparent, easy-to-use platform for finding and comparing premium tutors. Once you are matched, our concierge team actively manages the communication for your first 2 lessons, then parents and tutors take over the ongoing schedule directly.
MatchMax manages the introduction and the first two lessons. The ongoing schedule is between parent and tutor.
For parents
Browse the tutor cards or send the request form. We shortlist, the concierge introduces, and the first lessons run with us on call. The admin fee is 1.5 lessons in total, 100% of Lesson 1 plus 50% of Lesson 2, paid to MatchMax by FPS, and you pay the remaining 50% of Lesson 2 directly to the tutor.

The money, in plain terms

Rates are the tutor's

Tutors set their own hourly rates. What the card shows is what the tutor charges, we do not mark it up.

Names stay off the public card

Cards show first names only. You get the tutor's full name when the concierge makes the introduction.

A poor fit can be replaced

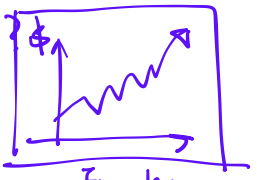

If the fit is wrong after lesson one, tell the concierge and we will arrange a replacement tutor.
